The intercom feature of your phone system is a great tool. It allows you to intercom other extensions and instead of their phone ringing when you call them, their speakerphone will auto answer the call and you will hear a beep. Then you can start talking to them right away.

To use intercom on your phone, you can either dial *80 plus the extension number or simply press the Intercom button and dial the extension number of the person you want to intercom with.

Once you press the Intercom button, you should hear dial tone and see a screen like this.

Now dial the extension number on your phones keypad.

Press the Dial key and you should hear a beep once the other phone auto answers. You can now start speaking.
