How to Find the IP Address

Quick Steps

1. With the device connected via Ethernet cable, click on the link below to download and install the free GSurf_Pro software from the Grandstream website.
   http://www.grandstream.com/products/tools/surveillance/GS_Search.zip
2. Click the "Search" button and the detected devices will appear in the Output field.

Index	Model	Version	Device Name	IP	HTTP Port	RTSP Port	MAC
1	IPCAMERA 3662HD	1.0.4.43	GXV3662HD	10.10.0.1	80	554	00:0B:82:41:68:4E

Search   Add

IP Address Configuration   Wifi Configuration

Old IP   .   .   .

☐ Use DHCP

New IP   .   .   .   Ping

Sub net mask   .   .   .

Gate way   .   .   .

Modify IP

3. The IP Address for this device will display in the IP column.

How to Find the MAC Address

Quick Steps

1. Once the device is detected using the GSurf_Pro software, double click the device. Your browser will automatically open and link to the device IP and the web configuration page.

Index	Model	Version	Device Name	IP	HTTP Port	RTSP Port	MAC
1	IPCAMERA 3662HD	1.0.4.43	GXV3662HD	10.10.0.1	80	554	00:0B:82:41:68:4E

2. From the home page, click on "Configuration" at the bottom left. The default username is "admin" and the default password is "admin".

The server http://10.10.0.1 requires a username and password.

User Name: admin

Password: ●●●●●

Cancel   Log In

3. Under Basic Settings on the left, click "Status".

| Video & Audio |
| Networking |
| Wifi |
| DDNS |
| SIP |
| Status |
| Advanced Settings |

4. The MAC Address will display under Network Status.

System Statistics

Product Model:	GXV3662HD
Hardware Version:	V0.4B
Part Number:	9670000904B
Bootloader Version:	1.0.0.0
Core Version:	1.0.4.2
Base Version:	1.0.4.38
Firmware Version:	1.0.4.38
System Up Time Since:	3 hours 31 minutes

Network Status

MAC Address:	00:0B:82:41:68:4E
LAN IP Address:	10.4.0.159
LAN Subnet Mask:	255.255.255.0
LAN Default Gateway:	10.4.0.254
PPPoE IP Address:	0.0.0.0
PPPoE Status:	Disconnected
DDNS Status:	Disabled
Wifi Status:	Disconnected
SIP Registered:	Offline

Camera Type

|	
Camera Type:	Aptina, MT9D131 Pixels 1600*1200

How to Set the Configuration Server

Quick Steps

1. Once the device is detected using the GSurf_Pro software, double click the device. Your browser will automatically open and link to the device IP and the web configuration page.

Index	Model	Version	Device Name	IP	HTTP Port	RTSP Port	MAC
1	IPCAMERA 3662HD	1.0.4.43	GXV3662HD	10.10.0.1	80	554	00:0B:82:41:68:4E

2. From the home page, click on "Configuration" at the bottom left. The default username is "admin" and the default password is "admin".

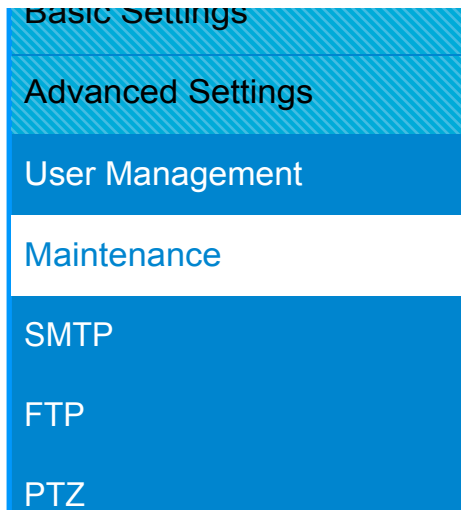

The server http://10.10.0.1 requires a username and password.

User Name: admin

Password: •••••

Cancel   Log In

3. Under Advanced Settings on the left, click "Maintenance".

Basic Settings

Advanced Settings

User Management

Maintenance

SMTP

FTP

PTZ

4. Then under Firmware Upgrade and Provisioning, define the Config server path to your PBX. Generally this would be the IP address such as 10.10.0.1, used in our example. Press the "Save" button at the bottom.
