

Polycom IP6000 Conference Phone

Designed for offices or small to medium sized conference rooms, the Polycom IP6000 provides remarkable room coverage. You can speak naturally from up to 12-feet away from a microphone and still be heard clearly on the far end of the call.

Features & Functionality:

- * Polycom HD Voice technology for high-fidelity calls at up to 14 kHz – An industry first, an IP conference phone that sounds as natural as being there
- * Patented Polycom Acoustic Clarity™ technology – delivering the best IP conference phone experience without compromise
- * 12-foot (4-meter) microphone pickup – ideal for small to midsize conference rooms. Add even greater range with optional expansion microphones
- * Strong, robust SIP software – leveraging the most advanced SIP endpoint software in the industry, with advanced call handling, security, and provisioning features
- * Robust VoIP interoperability – Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration
- * Resists interference from mobile phones and other wireless devices while delivering clear voice conferencing with no distractions
- * High-resolution display – enables robust call information and multi-language support
